

Update, 1st April 2022

Who we are

Our Vision

In order to keep global warming far below 2°C, the energy sector needs to be decarbonized. Dolfines wants to play a key role in providing services and solutions for renewable energy production on water, on land, above and below ground.

Our Mission

Dolfines provides services and innovative solutions to harvest renewable energy sources based on past experience in the O&G industry. Dolfines is designing such solutions to play a major role in the energy transition, minimizing the environmental impact and levelized cost of energy.

A large, white wind turbine is shown against a blue sky with light clouds. The turbine is positioned on the left side of the page, with its blades extending towards the top right. The background is a gradient of blue, transitioning from a darker shade at the top to a lighter shade at the bottom.

Safety at the heart of our daily actions

- Our long-term success originates from our effective performance in planning, execution, correction and ongoing improvements all the while protecting our employees and respecting the environment. Our QHSE system is developed and implemented abiding to the Quality Management System.
- Emanating from our employees' commitment, the board of directors is fully devoted to:
 - Satisfy our customers by adapting our products/services to their needs and considering their feedback
 - Comply with legal requirements, industry standards and regulations
 - Implement and maintain the QHSE management system
 - Protect the health and safety of our employees, customers, contractors and third-parties
 - Protect the environment in the communities where we work and live
- To achieve these commitments, we ensure that:
 - Resources are abundant and our employees are qualified by performing personnel competence management
 - Project objectives abide to the requirements of this policy
 - Communication is clear and punctual
 - Ongoing improvements are efficient

What we do

**Inspection &
Audit**

Solutions

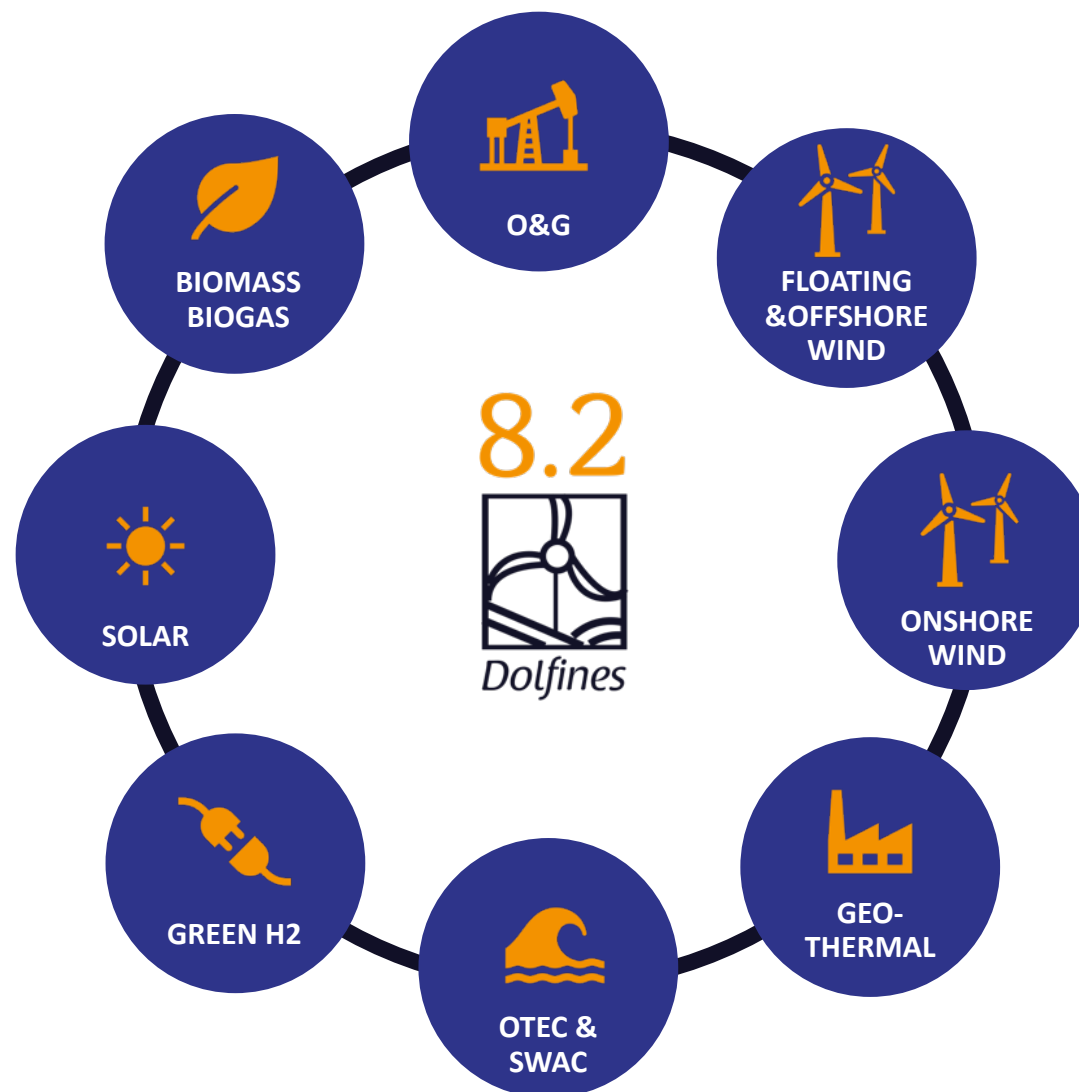

**Engineering &
Projects**

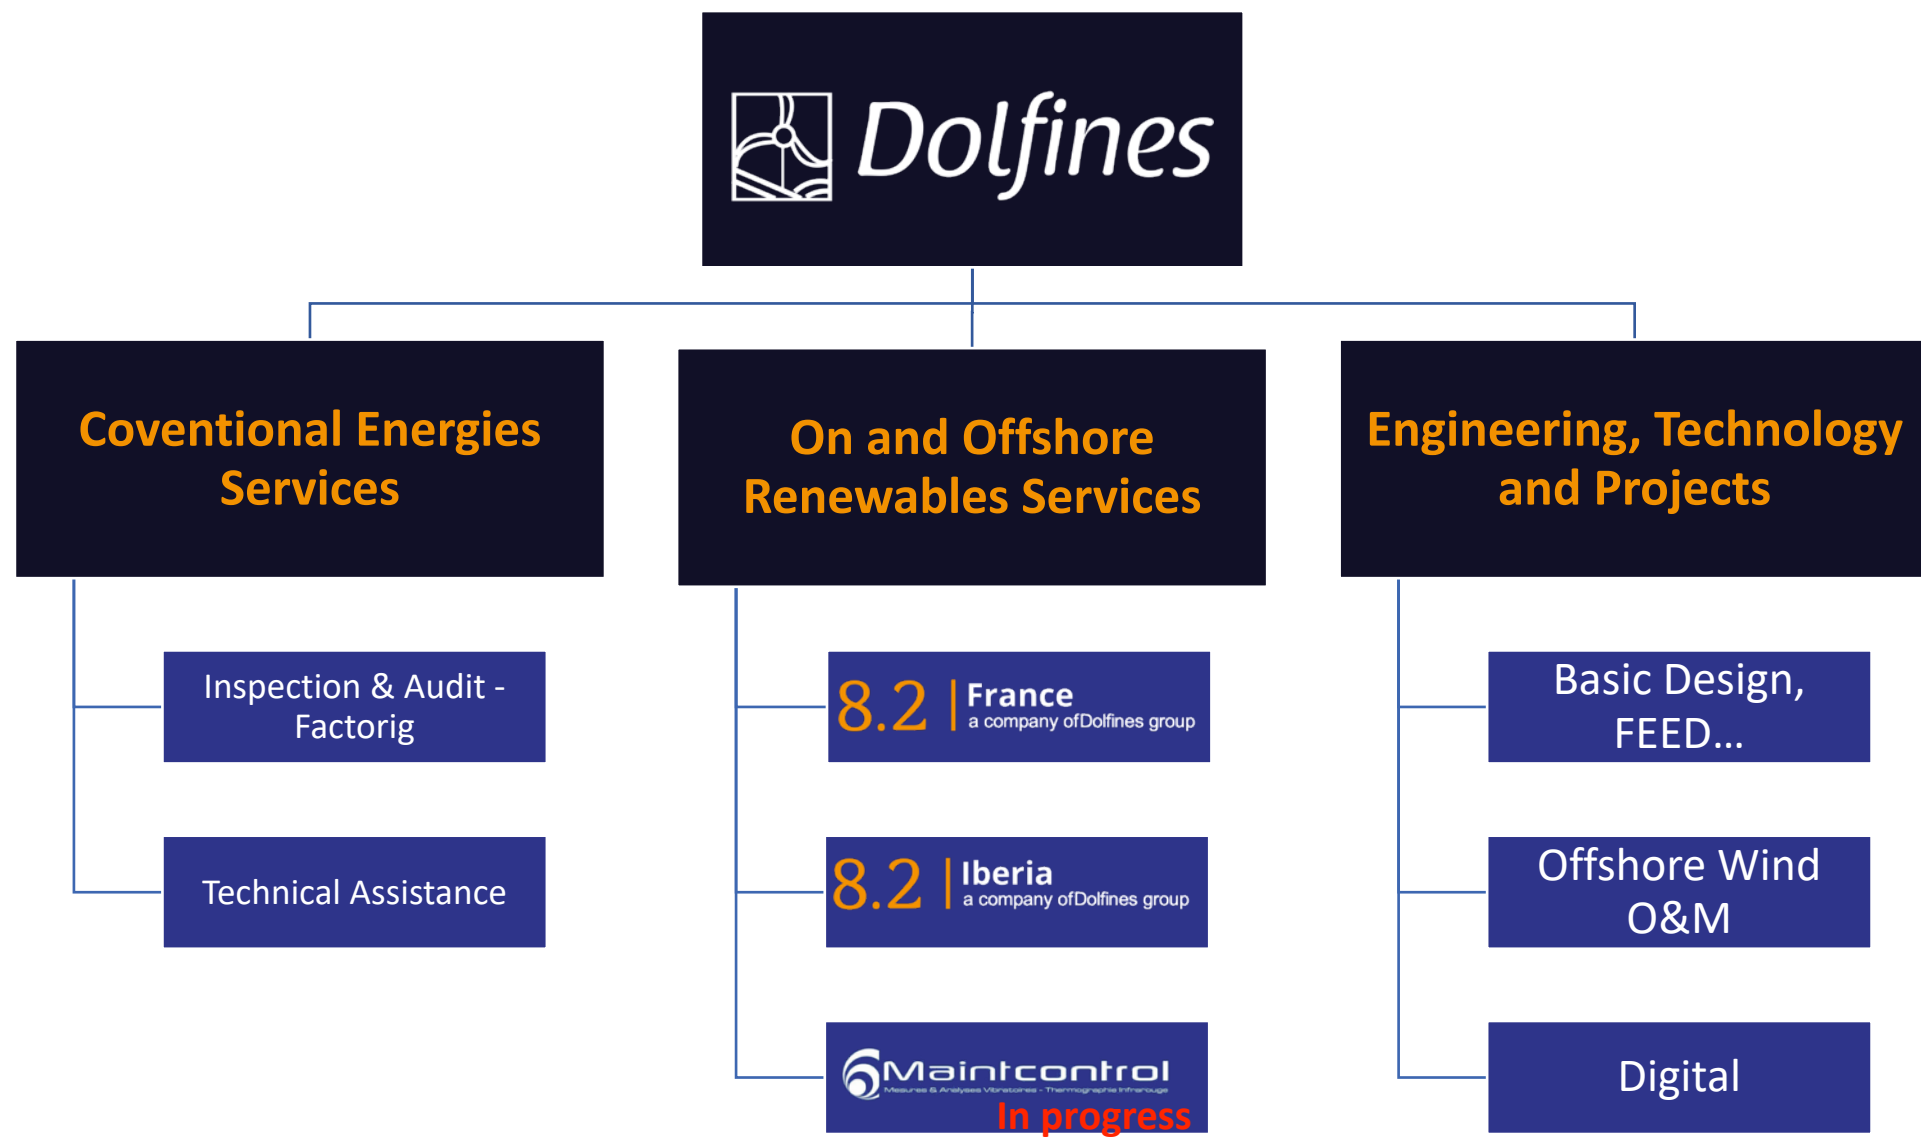

**Technical
assistance**

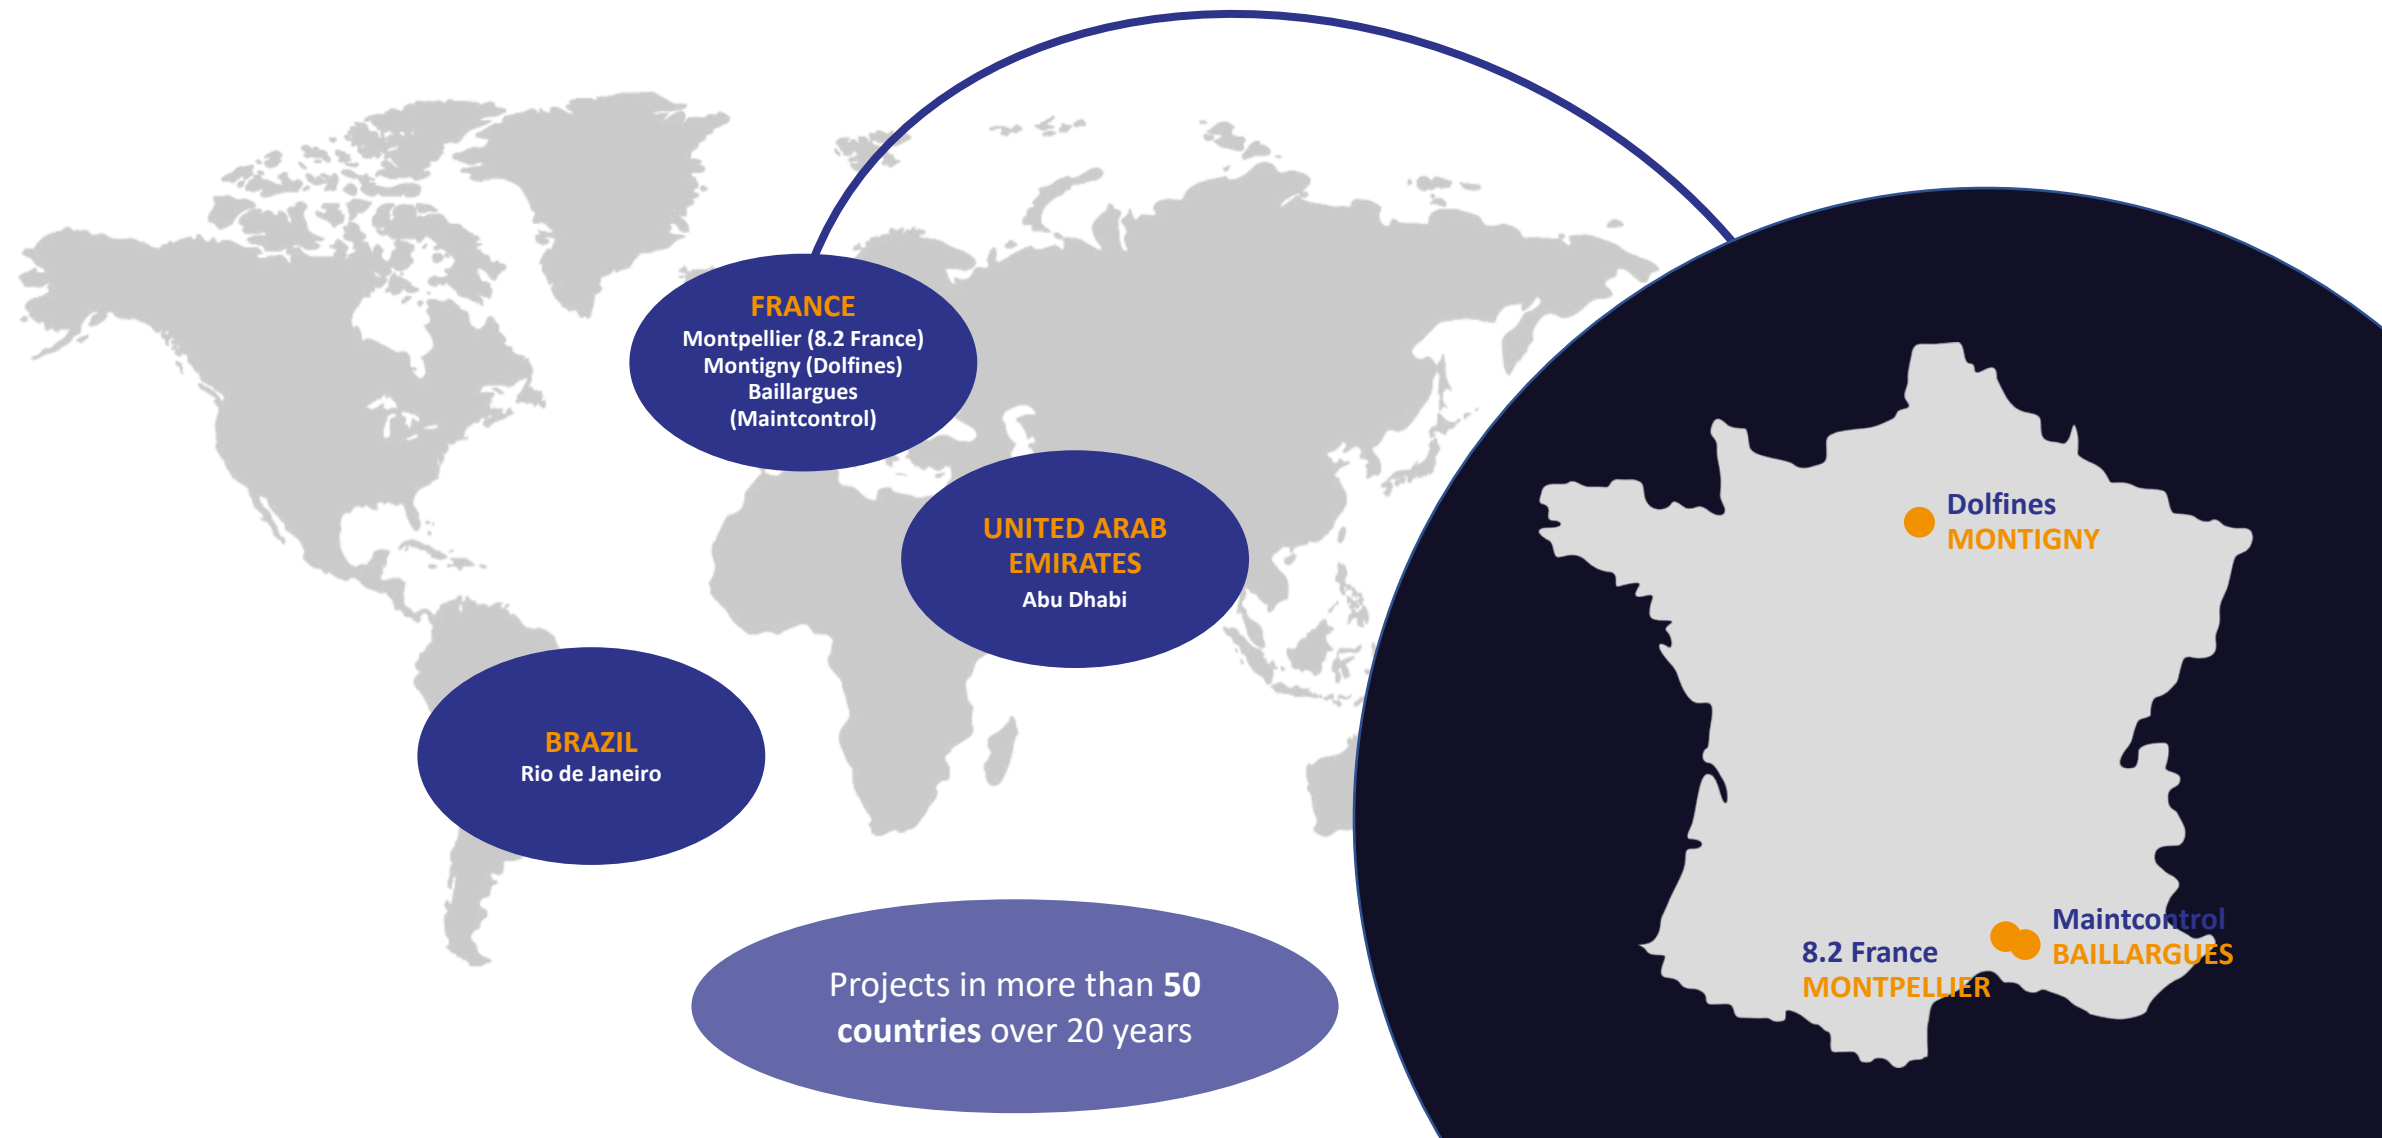

Sector of activity

Organization of Dolfines

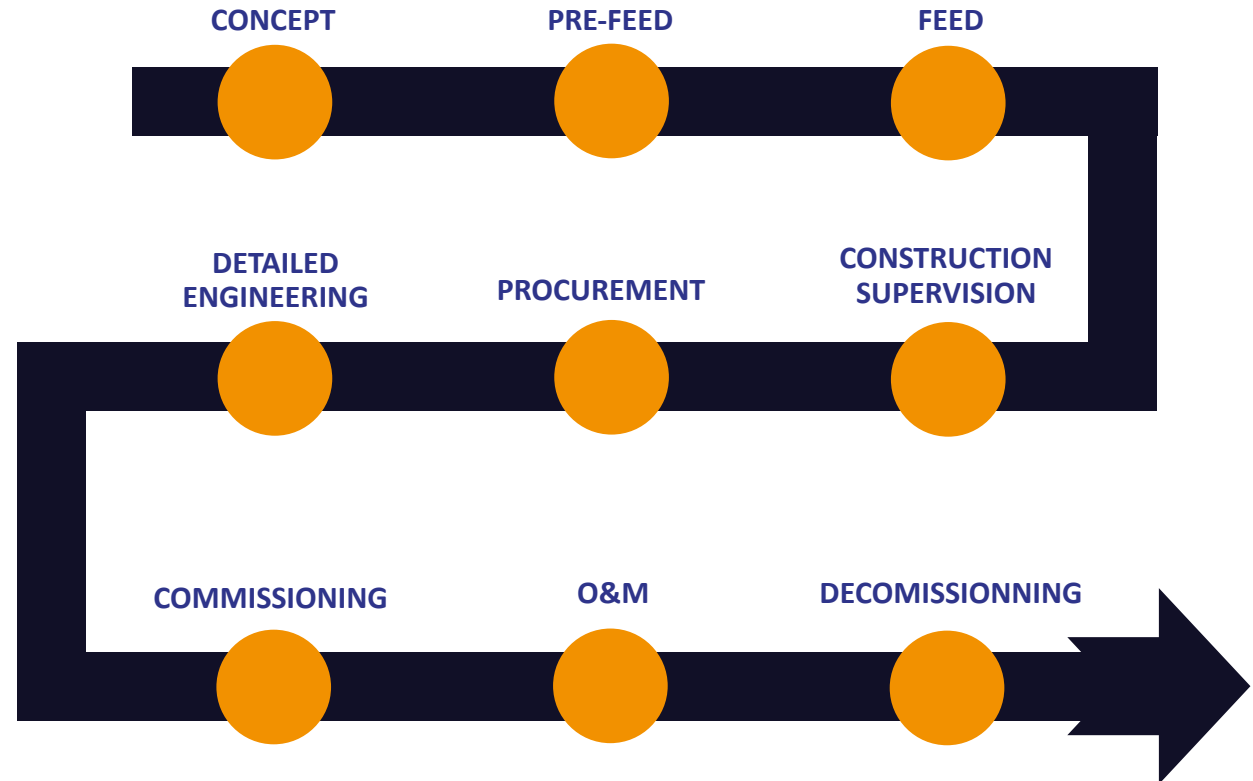

Worldwide presence

Dolfines' DNA

- ✓ Knowledge and **experience from the Oil & Gas industry**
- ✓ Specialist of **harsh environment**
- ✓ No competition to established EPCs but preferred **independent specialist**
- ✓ Proven flexible working methods and lean cost structure
- ✓ Development of industrial products
- ✓ Dolfines Services works according to **recognised international standards** such as DNV, API and ISO
